

VICA Skills USA Championships 2003

Graphic Communications

Forty eight students from 37 states participated in the graphic communications competition at the annual VICA Skills USA Championships in Kansas City.

Contestants were required to produce a job using a computer and page layout software, plan the production cycle, set up and run the job on a Heidelberg Press and fold it. Contestants also had to produce proofs and plates using CTP software and equipment, take a 100-question written test and take part in an Oral Professional Assessment.
